

QUARTERLY REDEMPTION CALENDAR

The Connetic Venture Capital Access Fund (the “Fund”) is registered under the Investment Company Act of 1940, as a closed-end management investment company that operates as an interval fund. Subject to applicable law and in accordance with the terms of the prospectus, the Fund will conduct quarterly repurchase offers for up to 5% of the Fund’s outstanding Shares at NAV. Shares in the Fund are highly illiquid and can be sold by shareholders only in the quarterly repurchase program of the Fund. Due to transfer restrictions and the illiquid nature of the Fund’s investments, you may not be able to sell your shares when, or in the amount that, you desire.

For the calendar year 2026, the Fund will make quarterly repurchase offers on the following dates:

- January 26th, 2026
- April 24th, 2026
- July 24th, 2026
- October 26th, 2026

Shareholders will receive notification of each Repurchase Request Deadline with instructions on how to submit a repurchase request no less than 21 days and no more than 42 days in advance of the Repurchase Request Deadline.

IMPORTANT DISCLOSURES

The Fund is a diversified, closed-end management investment company designed for long-term investors. The Fund is neither a liquid investment nor a trading vehicle. You should not invest in the Fund if you need a liquid investment. Closed-end funds differ from open-end management investment companies (commonly known as mutual funds) in that investors in a closed-end fund do not have the right to redeem their shares daily.

The Fund intends to primarily invest in securities of private, early-stage, venture-backed growth companies. There are significant potential risks relating to investing in such securities. Because most of the securities in which the Fund invests are not publicly traded, the Fund's investments will be valued by Connetic RIA LLC dba Connetic Ventures (the "Adviser") pursuant to fair valuation procedures and methodologies adopted by the Board of Trustees, as set forth in the prospectus. As a consequence, the value of the securities, and therefore the Fund's Net Asset Value ("NAV"), may vary. There are significant potential risks associated with investing in venture capital and private companies with complex capital structures. The Fund focuses on creating a large, diversified portfolio in an attempt to reduce risk compared to a smaller, concentrated portfolio. There is a greater focus in technology securities that could adversely affect the Fund's performance. The Fund's quarterly repurchase policy may require the Fund to liquidate portfolio holdings earlier than the Adviser would otherwise do so and may also result in an increase in the Fund's expense ratio. Portfolio holdings of private companies that become publicly traded likely will be subject to more volatile market fluctuations than when private, and the Fund may not be able to sell shares at favorable prices. Such companies frequently impose lock-ups that would prohibit the Fund from selling shares for a period of time after an initial public offering ("IPO"). Market prices of public securities held by the Fund may decline substantially before the Adviser is able to sell the securities. Certain conflicts of interest involving the Fund and its affiliates could impact the Fund's investment returns and limit the flexibility of its investment policies. This is not a complete enumeration of the Fund's risks. Please read the Fund prospectus for other risk factors related to the Fund.

- Shares are not listed for trading on any securities exchange, and you should not expect to be able to sell Shares in a secondary market transaction. Even though the Fund makes quarterly repurchase offers for its outstanding Shares (expected to be 5% per quarter, which is the minimum amount permitted), investors should consider Shares of the Fund to be an illiquid investment.
- The Fund is designed for long-term investors. An investment in the Fund may not be suitable for you if you need the money you invest within a specified period.
- The amount of distributions the Fund may pay, if any, is uncertain. There is no assurance that the Fund will be able to maintain a certain level of distributions to shareholders.
- The Fund's investments may require several years to appreciate in value, and there is no assurance that such appreciation will occur.
- Investing in the Shares may be speculative and involve a high degree of risk, including the risks associated with venture capital investing and the potential loss of your entire investment. See "Risks" in the prospectus.
